MUSTARD CAKE

MUSTARD OIL CAKES ARE AN EXCELLENT ORGANIC SOIL FERTILIZER AND A PROTEIN RICH SUPPLEMENT FOR CATTLE FEED.

Cake is a by-product of mustard oil production and is widely used as cattle feed, soil conditioner and also as raw material in solvent extraction of mustard oil. The mustard seed residue is cold pressed without any chemicals or additives. The minimum residual oil content in the all natural oil cake obtained is 7.50%. This makes it an effective feed for cattle which in turn promotes higher production and fat content in milk yield.
